INFORMATION

We are very excited to reintroduce the beginner instrumental music program at ECS! Studies have shown that students who participate in higher levels of music have high success rates in other fields and report less personal stress than their non-music counterparts. Please talk about music options with your student and fill out the reverse side of this page with your top three choices selected. There are many factors that we consider when helping a student choose the right instrument. We hope that all students can play their top choice, but sometimes physical limitations or certain tendencies make some instruments more appropriate than others. Please fill out and return this form to your home room teacher. If you have questions, please email Mrs. Gold at EGold@goecs.org or Mr. Puckett at Apuckett@goecs.org.
